PROJETOS

Controle Pessoal De livros

📅 04/2024 - 07/2024   📍 Localização

Project developed with React and Node, stores book information (author, image, price, and year of publication).
After receiving this data, everything is stored in tables and categories in the database, to then be displayed. Additionally, it is possible to search for a specific book or delete it. On the last page, you can view a graph that shows how much was spent per year of publication of the books, the most expensive book, and the average amount spent.

- Qual foi um resultado bem-sucedido do seu trabalho? (ex: Levantou R$3.000 para a caridade)

Weather-App

📅 07/2024 - 09/2024   📍 Localização

Project developed with React and Node, receives the user's location and provides weather information for major cities.
From the user's country, this information is obtained through an API request. More details are displayed when clicked, and in the search, the user can get weather information for any city in the world in the same way.

- Qual foi um resultado bem-sucedido do seu trabalho? (ex: Levantou R$3.000 para a caridade)

gameboxd

📅 02/2024 - 05/2024   📍 Localização

Project developed with React and Node, which also makes use of an API, in this case, from Twitch.
On the homepage, the "trending" section from Twitch appears, and in the search bar, you can find practically any game. All the information is obtained from the API, ranging from the release year, synopsis, and genre. An extra feature is the ability to rate games and also log in via Twitch.

ESPECIALIZAÇÃO NA INDÚSTRIA

full stack development

PAIXÕES

💎 **Web,mobile and IA development**

MEU TEMPO

A Studying logic and algorithms
B planning projects
C Commitings new solutions for my old projects.
D building new project
E Resting
F reading books

RESUMO

Enthusiastic computer science student with a passion for technology and a strong foundation in blockchain, cloud solutions, and web development. Eager to contribute to transformative projects that drive positive impact. Proficient in multiple programming languages and a strong advocate for leveraging modern technologies to solve real-world challenges. Committed to continuous learning and collaboration to foster an inclusive tech environment.

CONQUISTAS CHAVE

💎 **Blockchain Bootcamp Excellence**
Achieved 90% accuracy in blockchain bootcamp assignments.

💎 **Web Optimization Specialist**
Improved webpage load speed by 50% using HTML and CSS.

💎 **Azure Cloud Solutions**
Implemented 3 successful Azure cloud solutions for clients.

💎 **Productivity Enhancement**
Contributed to 15% increase in team productivity with Java scripts.
